

DCC – Dearborn Contracting Company . . . . .  
Dearborn Contracting Company helping a new  
customer in Ohio with Facility Modifications

Dearborn Contracting Company, Denham-Blythe Company, Inc., and Sun Chemical

Dearborn Contracting Company and Denham-Blythe Company, Inc., are partnering to complete a substantial facility renovation project for Sun Chemical in Maumee, Ohio. Denham-Blythe and Sun have worked together for 20 years, and we are happy to get the opportunity to serve both Denham-Blythe and Sun Chemical.

The work is planned for Sun’s Maumee, Ohio facility. Denham-Blythe and Sun have already completed several projects at this location.

Work has begun on the project and includes the demolition of existing racking systems, off-loading and setting of tanks, and the furnishing and installation of a new, structural steel mezzanine. Work is occurring during regular operations, making the coordination, cooperation, and planning of the project critical. Initial activities are running smooth. Work is expected to be completed in the fourth quarter of 2019.

Project Management duties are being handled by Luay Nseir and field operations are being managed by Tony Lord. We look forward to a long and cooperative relationship with Denham-Blythe
