The Topping Out Ceremony – Detroit, Michigan

Dearborn Contracting Company participated in a time honored and treasured tradition earlier this month with the Topping Out of City Club Apartments in Detroit, MI. Representatives from Local 25 – Ironworkers, DCC Field Management, DCC Field Tradesmen, and our other Union partners attended the ‘raising and placing of the last structural steel beam’.

This is DCC’s first Topping Out event held in the heart of Detroit. The event is a tribute to the hard working men and women in the field that make our business go.

The majority of our contractual work is nearing completion at City Club Apartments. Structural Steel is scheduled to be complete in October, slabs on deck will be completed in the months of October and November, and the site concrete will wrap up next year. We are proud to be part of this outstanding development in the middle of the Motor City.
